

CHOICE[®] WEATHER MASTER is a water conditioning agent for use with agricultural chemicals. Designed for hard water conditions, this liquid formulation locks up hard water cations allowing maximum herbicide performance. Compatible with all formulations of glyphosate.

FEATURES

- Water conditioner
- Multiple Sequestering and Complexing agents
- Liquid formulation

RATES

1-2 qt/100 gal spray solution

TARGET CHEMISTRIES

Glyphosate

GROWER BENEFITS

- Reduces effects of hard water on herbicide performance
- Bind multiple hard water cations, such as calcium, manganese, magnesium and potassium
- Convenience of treating 1000 gals with 2½ to 5 gals of liquid instead of 100 to 200 lbs of dry product

Action of Choice[®] Weather Master in hard water

Hard water with cations

Addition of certain active ingredients actually "lock-on" to the cations.

The addition of **CHOICE Weather Master** results in it "locking-on" to the hard water cations. This prevents hard water cations from interfering with the herbicide performance.
