

**LIBERATE**® is an uptake enhancing surfactant blend. Liberate is designed for use with pesticides that recommend a non-ionic surfactant, and works especially well with systemic chemistry, reducing driftable fines.

### FEATURES

- Contains LECI-TECH® , a unique technology that assists overall spray performance
- 100% active and odorless
- Target chemistries include sulfonyl urea herbicides, fungicides and those chemistries requiring a neutral pH

### RATES

1-4 pt/100 gal of spray solution

### TARGET CHEMISTRIES

Herbicides, Defoliant, Desiccants; Insecticides, Fungicides, Acaricides, Plant Growth Regulators

### GROWER BENEFITS

- TO: Drift reduction with performance-sized droplets
- ON: Droplet retention by adhesion and spreading
- IN: Increased penetration without cuticle disruption
- Contains an antifoam/defoam component and will not cause foaming problems in the spray tank

**LECI-TECH**®  
Droplet Retention

*Without Leci-Tech*                      *Leci-Tech Inside*

*Demonstrates the effect of Leci-Tech chemistry on spray solutions by retaining more of the "performance-sized" droplets on the waxy leaf surface of Common Lambsquarters. Clay solution was used for a visual indicator.*
