

FirstWatch™ 84 WDG is an excellent choice for soybean growers for managing tough-to-control broadleaf weeds. The active ingredient Cloransulam-methyl in FirstWatch™ 84 WDG has proven to be an effective tool for managing broadleaf weeds including glyphosate tolerant weeds like marestail, ragweed, and lambsquarters. FirstWatch™ 84 WDG is a great tank mix option that can be applied pre through postemergence with no crop leaf burn or stunting.

## FEATURES
