

**BLACKMAX<sup>®</sup> 22** is a nutritional enhancement tool designed to positively impact nutrient availability and support positive soil attributes. As part of a fertilizer program the C<sup>2</sup> Technology in BLACKMAX 22 can give growers more nutrition for their crops and provide a better soil environment in which to grow.

## FEATURES

- C<sup>2</sup> Technology to enhance applied nutrient availability and uptake
- Contains extracted carbon and a carbohydrate package for nutrient chelation and soil amendment properties
- Sound, efficient formulation compatible with many fertilizers

## GROWER BENEFITS

- Enhanced existing nutrient mineralization and nutrient solubility
- Designed to promote beneficial microbes to drive soil process that make nutrition move available to the growing crop
- Sound, efficient, flexible formulation

## ANALYSIS

0-0-4 with C<sup>2</sup> Technology

## RATES

0.5-4 gal/A banded or broadcast
