

Circa® ZMB is from our line of concentrated liquids specifically designed for coating prilled and granular fertilizers with micronutrients. Circa micronutrients allow for accurate and reliable access to essential soil applied micronutrients to support yield and quality. Circa ZMB pairs with your dry N, P or K applications for a flexible whole-acre fertility solution designed around your farm's needs.

### FEATURES

- Designed to coat all types of dry fertilizers for maximum distribution across the acre
- Highly concentrated formulations deliver high levels of key nutrients
- Compatible with Titan® XC and other nutrient use efficiency tools for a customized approach to dry fertilizer

### GROWER BENEFITS

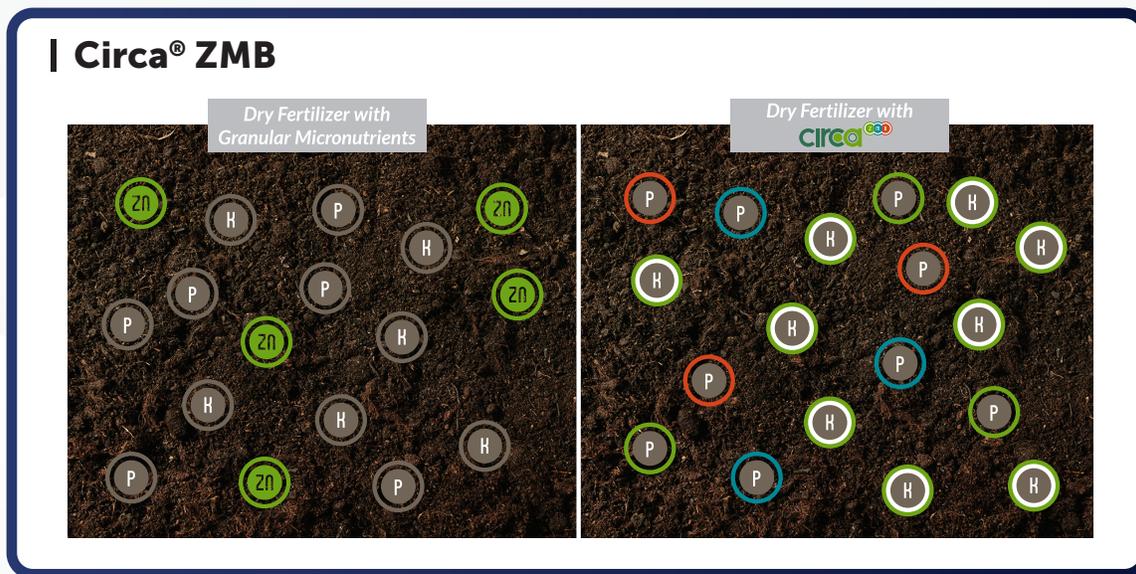

- Convenient and efficient way to address early season Zinc, Manganese and Boron needs in many crops where liquid injection isn't an option
- Distribution and efficiency is maximized by the micronutrient being coated on each piece of dry fertilizer applied

### RATES

Up to 160 fl. oz/ton of dry fertilizer

### ANALYSIS

1-0-0 16%Zn 8%Mn 4%B
