

Maximum N-pact is an enhanced, slow-release nitrogen which provides a stable source of foliar nitrogen for increased uptake, translocation and assimilation of nitrogen, reduced volatility, and excellent crop safety.

FEATURES

- 31% more efficient uptake vs. other nitrogen sources
- Superior crop safety
- Applicable to most specialty and field crops to enhance growth and quality, correct nitrogen deficiencies, and help plants recover from stressful conditions

GROWER BENEFITS

- Excellent source of foliar nitrogen
- Increased drought and salinity tolerance
- Increased photosynthesis
- Faster response to stress

ANALYSIS

24-0-0, 33% Slow Release Nitrogen

RATES

1-3 gal/A for most crops and applications
