

Pro Trio™ (7-0-0) is part of a line of Pro Micronutrient Products designed primarily for soil application but with the added flexibility of foliar use to address the needs of a variety of crops across a range of cropping systems. Formulated with chelators and sequestering agents in addition to EDTA forms of metals, Pro Trio from Loveland and available exclusively from Nutrien Ag Solutions provides compatibility and application flexibility to provide the results growers demand.

FEATURES

- Highly available forms of multiple micronutrients
Chelation and sequestering agents for compatibility with many fertilizers and optimized for efficiency in many applications including soil and foliar applications
Suitable for many crops including cereals, legumes, vegetables and permanent crops

GROWER BENEFITS

- Flexible and compatible formulation of Zinc, Manganese, and Boron to prevent or resolve common deficiencies
Protected nutrients are highly effective in soil applications for most crops

RATES

1-2 qts/A for most crops

ANALYSIS

7-0-0 3% Sulfur, .25% Boron, 3%Manganese, 3% Zinc
