

DYNA-SHIELD[®] FLUDIOXONIL provides protection against decay, damping-off and blight for a strong start to help maximize yield potential. It provides excellent protection at very low rates, allowing room for other materials (such as inoculants) to be applied to the seed. It has excellent seed and crop safety, and is labeled for use on a variety of crops.

FEATURES

- Highly efficient, low volume formulation
- Compatible with complementary seed treatments
- Excellent seed and crop safety

RATES

0.08-0.16 fl oz/100 lb of seed. Refer to the label for specific use rates by crop.
